PROFESSIONAL EXPERIENCE

Mobile Application Developer(Contract)
Unilink

November 2024 - Present
Remote, United Kingdom.

- Develop an engaging, cross-platform mobile application centered on students, providing them with access to resources, networking opportunities, and career advancement tools.
- Implement business requirements and key features like job listings, E-learning, Chat, using React Native, TypeScript, and other related technologies.
- Focus on responsive, mobile-first design and user-friendly user interface, as well as cross-platform compatibility..
- Work closely with Back-end Developers to ensure seamless API integration.
- Driving efficiency and excellence through collaborative teamwork.

Web Developer
Optimize Entertainment

January 2023 - September 2023
Remote.

- Developed and maintained a comprehensive website facilitating ticket booking, event hosting, and event management, ensuring seamless user experiences.
- Improving the website’s user interface to enhance user engagement and satisfaction, leading to a 20% increase in user retention rates.
- Collaborated with design and marketing teams to ensure cohesive branding and marketing strategies aligned with website functionality.

Frontend Web Developer
HOO Socials

March 2023 - July 2023
Remote, Lagos.

- Built and maintained an event hosting platform enabling users to discover and host events seamlessly.
- Implemented new features like real-time event updates, social media integration, and user-friendly navigation to improve the platform’s usability.
- Regularly gathered and analyzed user feedback to inform iterative improvements, significantly increasing user satisfaction.

Front-end Developer(Internship)
Zuri Internship

February 2021 - July 2021

- Collaborated with a team of developers, designers, and project managers to deliver high-quality software solutions.
- Actively participated in training sessions and workshops to enhance coding skills and stay updated with the latest industry trends and technologies.
- Contributed to developing multiple projects, including creating user interfaces, fixing bugs, and optimizing code for better performance.

PROJECTS

Role - Frontend developer

Uniquecoop | www.uniquecoop.net

I was involved in integration and maintenance of the Uniquecoop web application. An important part of my role in this project was to implement new features that would further increase the usability of the web application, which in-turn promoted the experience of users. Uniquecoop is a software as a service, which empowers cooperatives with the education and technology to operate efficiently and effectively, with a focus to help society members solely depend on them to actualize their dream through savings, contributions and loans. Technologies used are JavaScript, React Js.

Role - Web Developer

Motoya Kouture | www.motoyakouture.org

I re-developed "Motoya kouture" website, handling both frontend and backend development. Utilizing vanilla JavaScript, PHP, the project is a fashion website offering exquisite wedding and occasional dresses for the everyday woman.

Role - Software Developer

Intrusion Detction System |

www.colab.research.google.com/drive/1UkyJ_sQnmOsehjFm_M2ud2r2IU7mmzo8#scrollTo=hkF_OFrAJxoG

I implemented an intrusion detection system which handles vulnerabilities in a network using a Machine Learning Algorithm referred to as Long Short-Term Memory Network. I developed the model using Python programming language and TensorFlow.

SKILLS

- JavaScript, TypeScript, Python, Node, PHP, React Js, React Native, JQuery, Next Js.
- Problem-Solving.
- Effective Communication and Collaborative Teamwork.
- Functional Components, React Hooks, State management.
- Remote work flexibility.
