- Collaborated with a team of developers, designers, and project managers to deliver high-quality software solutions.
- Actively participated in training sessions and workshops to enhance coding skills and stay updated with the latest industry trends and technologies.
- Contributed to developing multiple projects, including creating user interfaces, fixing bugs, and optimizing code for better performance.

PROJECTS

Role - Frontend developer

Uniquecoop | www.uniquecoop.net

I was involved in integration and maintenance of the Uniquecoop web application. An important part of my role in this project was to implement new features that would further increase the usability of the web application, which in-turn promoted the experience of users. Uniquecoop is a software as a service, which empowers cooperatives with the education and technology to operate efficiently and effectively, with a focus to help society members solely depend on them to actualize their dream through savings, contributions and loans. Technologies used are JavaScript, React Js.

Role - Web Developer

Motoya Kouture | www.motoyakouture.org

I re-developed "Motoya kouture" website, handling both frontend and backend development. Utilizing vanilla javaScript, PhP, the project is a fashion website offering exquisite wedding and occasional dresses for the everyday woman.

Role - Software Developer

Intrusion Detction System |

www.colab.research.google.com/drive/1UkyJ_sQnmOsehjFm_M2ud2r2IU7mmz08#scrollTo=hkF_OFrAJxoG

I implemented an intrusion detection system which handles vulnerabilities in a network using a Machine Learning Algorithm referred to as Long Short-Term Memory Network. I developed the model using Python programming language and TensorFlow.

Role - Web Developer

Whispered Aroma | www.whisperedaroma.netlify.app

I developed a static website for displaying perfumed fragrances. This project was developed using JavaScript, React Js. It is a responsive, user friendly website with a simple yet elevating design.

SKILLS

- JavaScript, TypeScript, Python, Node, PhP, ReactJS, JQuery, NextJS , HTML5, CSS, Bootstrap.
- Problem-Solving
- Effective Communication and Collaborative Teamwork
- Functional Components, React Hooks, State management
